To the voters of Washington County.

I wish to thank you for your loyal support in the Primary Election of the 30th ult. Your expressions of confidence places me under renewed obligations to you.

To those who did not vote for me, I entertain nothing but kind feeling, and hope that circumstances may be such as to draw us closer together in the future. I still solicit your votes and good will, and ask you not to be deceived by any misleading reports gotten out by political enemies, but give me a chance to explain myself and I will make everything plain.

I remain yours to serve.

W. T. HORNE.

Card of Thanks.

Editor Banner:

Kindly permit me to thank the voters of Washington County for the loyal support given me in the first primary. I desire to thank all who have spoken favorably of my candidacy. I know many voted for others because they thought I had no chance to win. While voting for others, they have testified to the voters that I have lived a clean life, am cool headed, sober and well qualified to fill the office as sheriff of Washington County. They have given me credit for being brave in the sense of unflinchingly standing for fairness and a square deal to all.

With this recommendation coming from my oponents, and now that it is settled that I have a chance to win, you can feel satisfied that a vote for me will not be thrown away.

Elect me and I will make you the best officer I can, and will see to it that Washington County has as good a sheriff as any County in the State.

Yours sincerely,

M. W. BRETT.

Summer is almost on us. The question of health is the most important of all questions. Sickness is not only expensive to the individual but to the community. How much of illness could be prevented. Florida is the healthiest or most healthful of all the states. How many cases of fever would be avoided, if the plans of Doctor Porter, state health officer, could be carried out. Why not all begin to reduce the number of flies to the lowest possible minimum? Clean up. Screen all places where food is exposed.

Porter Thanks Voters.

Editor Banner:

Please allow me space in your valuable paper to express to the voters of Washington County my heartfelt thanks for the magnificent vote given me in the first primary for County Treasurer.

There being three candidates in the race, I did not expect either of us to win in the first primary, but I am satisfied with the vote I received, and feel hopeful that I will become the choice of the people in the second race.

I hope that those who gave me their support in the first primary can consistently continue to support me, and I respectfully ask those whose candidate was defeated in the first primary to give me their support, which I assure them will be highly appreciated.
